

Safe Transfer

# Service Reminder

Dear Valued Customer,

Thank you for choosing Safe Transfer for your basket needs.

As part of our commitment to ensuring your safety and maintaining the highest standards, we would like to remind you of the necessary annual and five-year service inspections for your Safe Transfer basket.

## Annual Service Inspection

It is crucial to ensure that your Safe Transfer basket undergoes an annual service inspection.

This can only be performed by trained specialists from a Safe Transfer-accredited service center!

An annual service inspection is typically visually but involves replacement of certain parts:

- Compensator - MANDATORY TO BE REPLACED EVERY 12 months
- Fenders, top buoy - Recommended to be replaced every 12 months
- Rope Sections, guiderope, topnet etc. - To be replaced in case of defects or visual wear and tear

Regular maintenance of these components is essential to guarantee the continued safe operation and longevity of your equipment.

## Five-Year Service Inspection

In addition to the annual inspections, a more comprehensive service is required every five years.

During this inspection, the following procedure and components will need to be replaced:

- Load-test & NDT - MANDATORY TO BE PERFORMED BY ACCREDITED 3. PARTY
- Lifting Sling - MANDATORY TO BE REPLACED EVERY 5 YEAR
- Compensator - MANDATORY TO BE REPLACED EVERY 12 months
- Fenders, top buoy - Recommended to be replaced every 12 months
- Rope Sections, guiderope, topnet etc. - To be replaced in case of defects or visual wear and tear

## Importance of Original Spare Parts

To ensure the highest level of safety and performance, it is important that only original spare parts from Safe Transfer are used during these service inspections. Utilizing original parts guarantees that your equipment meets all safety standards and operates as intended.

## Contact Us

If you have any questions, please contact our local accredited service centers or Safe Transfer A/S directly:

Safe Transfer A/S  
Head of Sales and Production  
Keld Moesgaard
